Current communicative computer science student with 7+ years of experience building Android applications and OOP languages, particularly in Python and Java. Eager to secure an internship or full-time position using my experience and interest with neural networks, cybersecurity, health informatics and back-end development to help aid any company I may join.

PROFESSIONAL EXPERIENCE

Technical Assistant | Irvine, CA

UCI – Division of Continuing Education, Oct 2021 – June 2022

- Provided ongoing video programming support to identify, fix, and test local bugs, and surveyed user feedback to implement changes that increased user satisfaction by 19%
- Aided Professors and Students with local IT security issues that arose, reducing number of user complaints by 28%
- Collaborated in a team of 20 workers to support over 30 classes per semester
- Managed a 3 building AV system to prepare for events and classes
- Updated server-side HTML code consistently, aiding clients to access information in a more secure manner and saved 15+ hours for colleagues

RESEARCH PROJECTS

Student Researcher | Irvine, CA

UCI – Biomedical Sciences, Jan 2023 – Present

- Leading a 7-person team to implement a responsive Android Application that utilizes a TensorFlow Deep Learning model to analyze live images captured on mobile devices
- Building a EyeDrop identifier by labeling 15,000 images to create a dataset in order to train YOLO object detection with Label Studio
- Deployed an AWS S3 server integration to store JSON packets of critical medical data in order to communicate with mobile devices

PROJECTS

Geolocation-Based Tracking

- Implemented a Life360-like Android application with authentication that made 30+ calls/hour to the GoogleMapsAPI and back-end storage in Google Firebase for security

SKILLS

Programming Languages: Python, Java, Kotlin, HTML/CSS, SQL (sqlite3)

Frameworks and tools: Git/GitHub, Android Studio, VS Code, IntelliJ

Firestore, Roboflow, Burp Suite

OS: Android, Windows

EDUCATION

University of California – Irvine | Irvine, CA

B.S in Informatics, Sept 2021 - Present

- Relevant Coursework:
 - Advanced Python Programming with Software Libraries
 - Programming in Java
 - Current Practice and Methodology of Software Engineering
 - Boolean Logic and Finite Automata

CERTIFICATIONS/LANGUAGES

- Lyft Virtual Experience Program Participant | English – Kannada – Hindi
